Release Notes for Sage 100 2020.1 (6.20.1.0)

The following is a list of corrections and selected Enhancements added to Sage 100 2020.1

For a full list of Enhancements, refer to the What's New page inside the Product.

Product updates are cumulative; in other words, this update includes all enhancements and program corrections found in prior updates for version 2020. Smart Update will install only the programs that have been updated since your last update was installed.

All Sage 100 updates must be installed from the server where Sage 100 is installed.
